

106 D. 13) Scientific audit of the schools coming under Karnataka Residential Educational Institutions Society (KREIS)

Social Welfare Department invited KSCST to conduct Scientific Audit of the KREIS schools. The scientific audit aims towards pointing out system deficiencies with a view to assist the department. The role of audit is complementary to the efforts of the department to improve the managerial practices in school administration.

The audit team with expert members from ISEC, IISc, and NLSIU visited around 40 KREIS schools across Karnataka and evaluated schools on various parameters like buildings, classroom, playgrounds, laboratories, library, computer, ICT, internet facilities, equipment, ramp, Sewage Treatment Plant, UPS, Water purifier, Kitchen, dining hall, hostel facility, food, hygiene, quality accommodation, size of rooms, dormitory, toilet (separate for boys, girls, staff and differently abled people) drinking water, solar, electrification etc. This is to identify issues and to provide possible solutions to better school performance in providing quality education, students' performance, health and hygiene. Final report is under preparation.
