5. Conclusion

The NRDMS Centre has been assisting the District administration, Zilla Panchayath, line departments, NGO's and Academic institutions by providing analyzed information in the form of maps, graphs, charts and technical reports which are self-explanatory.

NRDMS Centre's plays very important role in GIS technology to provide need-based, spatial and non-spatial data to users like elected bodies, district administrations, and planners, aiding in resource management and decision-making.
